

Pear, Callery

Pyrus calleryana

- **Medium-sized deciduous tree**
- **Tear-drop shaped in youth and spreading out with age**
- **30' to 40' tall and about one-third as wide**
- **Fast growth rate**

- **Leaves are held on long stems**
- **2" to 3" long, almost as wide**
- **Glossy, dark green leaf color**
- **Autumn reds, purples, and oranges; Very attractive**
- **Laves tend to hold late, freezes could happen before color fully develops**

- **White attractive flowers**
- **Usually flowers peak before leaf set**
- **Flowers late April to early May**

- **Round pears; only about 0.5"**
- **Fruit is covered in russet dots**
- **Olive-brown to tan color**

- **Bark is light brown to gray**

- **Limb breakage from wind, snow and ice**
